

VIRTUAL REALITY EVENT:

VR PAINTING

Explore new dimensions of creativity

Experience and create art like never before in one of the most revolutionary VR experiences ever created. Pick up your digital brush and palette and paint whatever you like, wherever you like, in full 3D. Project guests into their own creations on a large video screen using our "Mixed Reality Capture System" engaging spectators in the experience. Whether they're a desktop doodler or a graphic genius, this immersive experience will unleash your guests' imagination like never before.

What you get:

4 Hours (or more) of unlimited Virtual Reality experiences using the latest technology. Our Green Screen Mixed Reality system projects guests into their virtual environment as they're creating it creating an engaging and entertaining show for spectators. Multiple headsets are available for larger events and hundreds of other entertaining and educational experiences ranging from golf tournaments to lightsaber battles!

Our team of VR experts will provide the perfect content suggestions and make sure your guests have an unforgettable experience.
